

Diagram illustrating various types of ventilation and air conditioning components, each with a corresponding symbol:

- RURY INSTALACJI FREONOWEJ (KLIMATYZACJA)**: Symbol showing a horizontal line with a small circle and a vertical line, representing a refrigerant pipe.
- INSTALACJA ODPROWADZENIA SKROPLIN**: Symbol showing a horizontal line with a small circle and a vertical line, representing a condensate drain pipe.
- ANEMOSTAT (ZAWÓR) WYMIEWNY**: Symbol showing a horizontal line with a small circle and a vertical line, representing an extract air grille.
- KRATKA WENTYLACYJNA**: Symbol showing a horizontal line with a small circle and a vertical line, representing a ventilation grille.
- WENTYLATOR KANAŁOWY**: Symbol showing a horizontal line with a small circle and a vertical line, representing a duct fan.
- WENTYLATOR ŁAZIENKOWY**: Symbol showing a horizontal line with a small circle and a vertical line, representing a bathroom fan.
- PRZEPUSZCZKA JEDNOPLASZCZYNOWA**: Symbol showing a horizontal line with a small circle and a vertical line, representing a single-layer filter.
- ELASTYCZNY TŁUMIK AKUSTYCZNY**: Symbol showing a horizontal line with a small circle and a vertical line, representing an acoustic absorber.
- KRATKA PRZEPŁYWOWA W DRZWIACH LUB "PODCIECIE" DRZWI**: Symbol showing a horizontal line with a small circle and a vertical line, representing a door air grille or door cutout.
- NAMIETRZAK OKIENNY**: Symbol showing a horizontal line with a small circle and a vertical line, representing a window air grille.
- KRATKA PRZEPŁYWOWA NAD DRZWIAMI**: Symbol showing a horizontal line with a small circle and a vertical line, representing a door air grille.
